

How to download Tindie product documentation

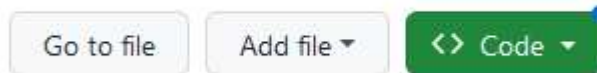

You can download the product documentation, its stored in a repository called 'Devices' on GITHUB. To download the documentation select the 'Documentation' link on the Tindie product page.

This takes you to that products documentation in the 'Devices' repository Github.

At the top left of the page you will see the words StuartsProjects / Devices;

Click on 'Devices', then on the next screen, which displays all the StuartsProjects devices that have documentation click on the green 'Code' button.

When you click on 'Code' you will be given the option to download a ZIP file containing all the documentation;
